

The 38th Chinese Control Conference

Panel Discussion Session Speaker

Jie Chen is a Member of Chinese Academy of Engineering, IEEE Fellow, CAA Fellow, CAAI Fellow, the President of Tongji University, Director of the State Key Laboratory of Intelligent Control and Decision of Complex Systems, Chief Scientist of a National 973 Basic Research Program, Principal Investigator of an Innovative-Research-Group Program supported by the Natural Science Foundation of China (NSFC). He is a Distinguished Young Scholar awarded by the NSFC, and a Changjiang Scholar Distinguished Professor awarded by the Chinese Ministry of Education. He serves as the Vice President of the Chinese Association of Automation, and an Executive

Director of the Chinese Artificial Intelligence Society. He is also the Managing Editor for the Journal of Systems Science and Complexity, and editorial board members and associate editors for several renowned international journals, such as IEEE Transactions on Cybernetics, International Journal of Robust and Nonlinear Control, Science China Information Sciences, and Control Theory and Technology.

Professor Chen's main research interests include multi-objective optimization and decision for complex systems, cooperative control of multi-agent systems, and constrained nonlinear control. He has authored/co-authored 4 monographs and more than 90 SCI journal papers, and holds more than 40 patents of invention. He has received the second prize of National Natural Science Award of China once, and the second prizes of National Science and Technology Progress Award of China twice. Science and Technology Award of the Ho Leung Ho Lee Foundation.
