

The 38th Chinese Control Conference

Panel Discussion Session Speaker

Jun Fu received the Ph.D. degree in mechanical engineering from Concordia University, Montreal, Quebec, Canada, in 2009. He is a postdoctoral fellow/associate in the department of mechanical engineering, Massachusetts Institute of Technology (MIT), USA from 2010 to 2014. He is a full professor at Northeastern University, China. His current research is on switched systems, robust control, mathematical programming, and dynamic optimization. He has authored/co-authored over 70 publications which appeared in journals, conference proceedings and book chapters. He

won the 2016 Young Scientist Award from Chinese Association of Automation. Currently, he is Associate Editors of IEEE Transactions on Systems, man, and Cybernetics: Systems, IEEE Transactions on Neural Networks and Learning Systems, Control Engineering Practice (IFAC), and Journal of Industrial and Management Optimization. He is a senior member of IEEE.
